Extra information

The above prices are exclusive of any design fees at €75 per hour excluding VAT.

Templates will be provided for the advertisements, where the design can be inserted.

A number of delivery specifications have been established for these advertisements, which can be found on the following page.

Specifications

Colour

For all files, the design must be set in the following color profile: Coated FOGRA39 (ISO 12647-2:2004). Failure to do so may result in the color of the image deviating from the original.

Text

Convert texts in the design to outlines.

Photo's

"Photos must be provided with a minimum dpi of 300. For larger visuals (such as the pitboxwall), a minimum dpi of 50 at 100% applies.

Bleed

All files should have a 10mm bleed around the edges, except for the pitboxwalls, which requires a 50mm bleed around all sides.

Overprint

Elements in the design marked with overprint will not be printed. Therefore, do not use overprint in your design.

Checks & files

Due to the large volume of printing work, there will be no extensive file and design checks. To ensure quality, submitted designs must meet the delivery specifications. Please use the provided templates as much as possible. Submit your file in .ai or .pdf (Illustrator standard) format. Avoid using InDesign files if possible!

Deadline

Designs can be submitted no later than Friday, September 12th.
